

Risk assessment for Safety and health protection on the stand (self provided information)

Appendix 1

Please notice: This form must be filled in only, when machines are demonstrated.

The present form is part of self-provided information on risk assessment and is needed for any practical demonstration on the stand.

For demonstration of several different machines or facilities it can be necessary to join additional copies of this form!

Please answer the following questions thoroughly and truly!

3/3

Company:	Stand number:
-----------------	----------------------

1. What is the subject of demonstration?

**2. Which powered machines, facilities or devices are used in demonstration?
 (Mention of similar product groups is possible, e.G. wood splitter, mobile saw device)**

3. Risk detection within risk assessment

3.1 Risk zones are determined in the context of an internal risk assessment*?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
3.2 There are unprotected moving machine parts (saw chains, hydraulic parts, grappler ...)?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
3.3 There are unprotected dangerous surfaces (sharp, pointing edges ...)?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
3.4 Is it planned to move machines on the stand?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
3.5 Accidentally moving parts are to be expected (wood chips, chain or rope rip, ...)?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
3.6 Risk of slipping or stumbling?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
3.7 Application of hazardous substances necessary (z.B. hydraulic oil, fuel, lubricant, detergents)?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
3.8 Is a permanent high noise emission to be expected (>80db(A)?	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>

* Based on the German Health & Safety Act, where applicable after accounting for the Operating Safety Order and the Hazardous Materials Order, the company must carry out a risk assessment for work or working procedures. Normally, this takes written form. Regardless of the basic legal requirement to prepare a risk assessment, there is a documentation requirement vis-à-vis the accident insurer (accident fund or mutual indemnity association).

3.9 Additional discovered risks::

4. Questions about operation environment und hazardous substances

- 4.1 A machine is in use? Yes No
- 4.1.1 The machine will be moved in the forest Yes No
- 4.1.2 The machine is moved only on the stand Yes No
- 4.1.3 The machine has a stationary position Yes No

4.2 The following energy source is used to operate the machine:

- Electric power Yes No
- Battery operation Yes No
- Gas (propane, butane, other) Yes No
- Fuels (gasoline, diesel, mix) Yes No

4.3 Questions on the existence/use of oil

4.3.1 Do you use mineral oil and/or biodegradable oil ?

4.3.2 In the event of using oil, you have

a binding agent available in sufficient quantities? Yes No

spread out an absorbing mat for disposal of hydraulic fluids? Yes No

4.3.3 In the System liters of hydraulic oil are used

5. Measures by the exhibitor to prevent risks					
5.1	Binding agent is maintained in a sufficient amount at the machine.	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
5.2	Parts of the stand that are particularly at risk are equipped with absorbing mat for disposal of hydraulic fluids.	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
5.3	An additional fire extinguisher is at hand.	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
5.4	The usage of personal protective equipment (mandatory helmet) during demonstration is signposted and controlled by the staff.	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
5.5	Disposable hearing protection is available at the stand.	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
5.6	Staff is informed about possible risks. They are familiar with the specified measures	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
5.7	The required safety distances are maintained and amount to _____ meters	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
5.8	The compliance with the determined necessary safety distances is guaranteed by steel fences (for example Mannesmanngitter).	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
5.9	The compliance with the determined necessary safety distances is guaranteed by a staff manned barrier and warning tapes.	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
5.10 Additional planned measures for risk prevention:					

We will be happy to assist you with safety relevant questions!

Answers to the most frequent questions you will find on our homepage at www.dlg-waldtage.de in the section „For exhibitors - event safety“ in the document "FAQs". If you don't find answer here, please feel free to call us at: +49 (0) 69 247 88 -341 or just write an e-mail to waldtage@DLG.org.

Declaration:

For itself and for any other users planned, the company hereby affirms explicitly and with legally binding effect that the information given above is complete and truthful.

All information in this self-assessment is intended to ensure health & safety protection during DLG-Waldtage 2019. The company is aware that incorrect or incomplete information within the context of this self-assessment will entitle the DLG Service GmbH, where necessary, to have immediate action taken to correct deficiencies at the exhibitor's expense or to eliminate the source of the hazard. On its part, the DLG Service GmbH as user of this self-assessment affirms that the above data will be treated confidentially and, in particular, that the provisions of data protection law to protect personal data (§1, §2 German Federal Data Protection Act (BDSG)) will be observed.

The company hereby confirms its explicit consent pursuant to §28 BDSG to use by the user for its own purposes of the data given.
